The Meadow – Infant Curriculum – 6 weeks to 15 months

Our infant room provides a calming environment of warmth and security. Babies will sleep in their own cribs away from the playing area with occasional soothing music. Infants will be held and rocked by our staff while eating their bottles and for special one on one time.

Stimulating toys are available for babies to explore and develop at their own pace. Teachers will sing songs and read stories to facilitate phonemic awareness. Babies will pass balls, climb, stack blocks, and participate in a number of activities that encourage large and small motor development. Our staff will provide a comforting and safe environment for babies spending lots of time cuddling and talking.

Babies create their own schedule of feeding, sleeping, and playing; however, our staff will work closely with each family to ensure consistency for the child between Alphabet Acres and home.

Your baby will become part of our family; therefore, we want the best for every child in our center. Please, feel free to discuss any matter with your head teacher or the center's director for any concerns or suggestions you may have.
