The Valley Curriculum – Waddlers / Toddlers – 15-24 months

Hello and Welcome to the Valley Classroom! Our goal is to provide a high quality, nurturing, and safe environment for your children that will help your child grow into a curious and happy individual. At Alphabet Acres we maintain a structured program including daily activities, curriculum, scheduled meals and rest periods. We believe children thrive when their lives are predictable and structured. Your child will be exposed to an exciting theme-based program that includes a variety of music, science, story time, arts and crafts, indoor/outdoor activities, and free play. All activities are designed to stimulate their physical, intellectual, social, and emotional growth in a loving and comfortable environment.

We support student's early learning and exploration through offering age appropriate materials and encouraging pride in work by displaying projects. We expose children to new, classic, and enriching picture books which give children a love of books before they even start reading. Your child will have the opportunity to discover colors, shapes, sounds, and textures through a variety of materials in and out of the classroom. Additionally, they will participate in circle time activities providing development of verbal skills as well as social growth. We will be working on ABC's, counting, nursery rhymes, coloring, and simple arts and crafts. We will also have materials to help develop their fine and large motor skills and hand-eye coordination. We will have days filled with a balance of quiet activities, music and movement, as well as plenty of outdoor climbing, running and jumping. Lesson plans will include imaginary play, blocks, puzzles, creative art, and lots of books to encourage phonemic awareness.

We are looking forward to building a trusting and supportive relationship with you and believe that communication is the key to your child's success and to a great parent/teacher relationship.
